On behalf of the Russian Union of industrialists and entrepreneurs let me greet the participants, guests and organizers of the IX International exhibition "SevTec-2013". For many years the expo "SevTec" is the greatest event reputed as an efficient ground for contacts expansion and deepening of cooperation among specialists of different fields of industry. This is an authoritative academic and research affair aimed at the industrial development in the Far North and is highly estimated by specialists and sparks wide public interest. All this is confirmed by a solid number of participant.

The President of the Russian Union of industrialists and entrepreneurs
A.N. Shokhin

The problems of realizing long-term strategy and prospects of the development of hydrocarbon reserves in the Russian Arctic shelf have not lost their relevance, and this gives the Arctic a status of strategically important region in the XXI century. "SevTec" has granted as a special platform, where the urgent issues of the Arctic energy complex development, realization of the subarctic zone potential and investment promotion are discussed.

The Governor of the Murmansk region
M.V. Kovtun

Implementation of great projects in the Murmansk region dictates the necessity of making constructive decisions in the sphere of development of industrial and investment activity in the region, cooperation with extensive Russian business and foreign companies.

The IX International specialized exhibition «SevTec – 2013» is a unique platform which gives opportunity to chiefs and experts of the Russian and foreign business to get acquainted in details with advanced industrial technologies.

First Deputy Governor of the Murmansk region
A.M. Tyukavin
